OBJECTIVE

I'm an engineer with deep passion for front end. I love crafting beautiful user interfaces through code.

SKILLS

- JavaScript
- jQuery
- Knockout
- Bootstrap
- HTML
- CSS
- SQL

EXPERIENCE

SOFTWARE ENGINEER (UI)
ALTISOURCE LABS
December 2017 - Present

I started off as a **self-taught JavaScript Developer**. User interfaces always fascinated me and even before moving to the new role, I started picking up skills on Front End. As a part of this role I work on Trelix frontend which is built in **Knockout** and **Jquery**.

SOFTWARE ENGINEER(QA)
ALTISOURCE LABS
September 2013 - December 2017

As someone who was responsible for Quality of our business-critical Banking application called Trelix, I had to think of ways to break the product. I picked up a combination of skills while in the role like Selenium testing, java, etc. Towards the end, I picked up Katalon framework for automation.

EDUCATION

Udacity Frontend Developer Nanodegree / 2018

Bachelor of Engineering (BE), Electronics and Telecommunication (2008 - 2012)
Chhattisgarh Swami Vivekanand Technical University

HOBBY PROJECTS - GITHUB

Apart from doing multiple frontend projects in **Udacity Nanodegree** like various games and apps using Vanilla JavaScript and Knockout, I am also participating in 30 days of JavaScript Challenge.

I have an active Github Profile and my personal projects can be found here @ https://anushree.tech/
